## September Reminders:

- **Schedule your irrigation winterization as soon as possible.** Even though you may not want to turn your system off until October or November, appointments fill up fast! Saturday appointments between 8:00 - 8:30 am are always the first to go!
- **Have your lawn renovated!** If you are a current lawn care customer, you will be receiving a proposal for **Lawn Renovation services.**
- **Have you been thinking about doing some planting of trees, shrubs, etc? Now is the best time of year to install new plant material.** The weather is perfect, not too hot and not too cold. Also, there is still time to enjoy your landscaping.

## Don't forget, we sell FIREWOOD!

With fall right around the corner, the weather will start getting a bit chilly. When you make your first fire of the season, you will need good *quality* wood! We have been selling firewood for many years. It is available in both oak and mixed. We can deliver and stack it for you or you can stop by pick it up! Call our office for more details, 856-783-8833!

## Information regarding Fall Lawn Renovations

As always, you will be receiving your lawn renovation proposal with Step 5 of our lawn care program. **Each proposal is specially written based on the current condition of your lawn.** We may be recommending you to have all three services, or maybe just one or two. Each service technique is different. However, they all have the same goal in mind, to help rejuvenate your lawn after the summer months. The three service options are powerseeding, de-thatching, and/or aeration.

Most customers also see positive changes in their lawn the following spring after receiving this service. Please note that for best results, your watering system should be set so that your lawn receives the adequate amount of watering necessary. Our irrigation department can guide you in setting your watering system correctly after your renovation, just give us a call. If you have any questions regarding this service please feel free to call our office, 856-783-8833 x 11
